ELECTRIC GUITAR GROUP

I am looking to set up a new group to incorporate all forms of electric guitar playing, be it Shadows style (my own interest), Jazz, or bass or any kind of playing. The group would be open to all players, novice and experienced alike, and hopefully we could bounce ideas off each other. You don't have to be able to read music as I use Tab, which is a simple form of music notation and I would be happy to show interested members this method. Meetings would take the form of a forum, where ideas are passed around, help given, and generally playing to which ever standard, people have reached. Interested members should contact:
